Windermere, FL, 34786

Hello TLC Families!

We are very excited to announce that TLC Pediatric Therapies has officially joined the Kids SPOT family. Kids SPOT has practices throughout the Southeast and originally started in south Florida. Kids SPOT has provided PT, OT, Speech, and ABA therapy to children for the past 15 years. Our values and vision align, so we know that the future is bright for clients and employees alike.

Our newly merged family combines the strengths and expertise of both companies to offer one comprehensive continuum of services for our clients. This new venture will allow us to reach more families, expand coverage for a larger number of insurances, extend and deepen our capabilities so that our clients can receive the very best care.

Even better news, there is nothing our families need to do, and no changes will be made to your therapy or the way our providers provide services. You will still be a part of TLC Pediatric Therapies and our contact information and management team are all staying the same.

If you would like to learn more about Kids SPOT, you can visit their website at www.kidsspotrehab.com.

If you have any questions at all, please don't hesitate to contact our office directly. We would be happy to speak with you!
